

Goran Ax Trophy

40th FAI World Gliding Championships - 2026

Combined ranking across all 3 classes

Method

The Goran Ax Trophy is awarded to the pilot with the highest accumulated Marking Distance (SoaringSpot 'scored_distance') over the whole championship, training days excluded. This report ranks all 73 competitors across the Open, 18 Metre and 20 Metre Multi-Seat classes over their 10 official tasks each (19-29 May 2026). The two practice days (13-14 May) are not counted.

Note: officially the trophy is Open Class only. This combined ranking is a non-standard extension. The three classes flew different tasks of different lengths, so raw distance favours Open (longest tasks). Per-class winners are listed below for a fair comparison.

Overall winner: Laurent Aboulin (FRA, Open)

Accumulated Marking Distance: 4,748.37 km

Per-class winners

Class	Winner	Distance
Open	Laurent Aboulin (FRA)	4,748.37 km
18 Metre	Victor Mallick (FRA)	4,151.02 km
20 Metre Multi-Seat	Grabowski & Czyz (POL)	4,072.53 km
